

THE
P21 - ARCHITECT BOOK
II

Spectrum Edition
2023

THE **BOOK** CONCEPT

Spectrum

A visible spectrum results in the passage of light through a glass, crystal or water, disassembling it in different colors. According to Isaac Newton, some of that light is reflected and some emerge as colored bands depending on the different electromagnetic waves. The spectrum does not contain all the colors we can see, because some of them can only be seen by blending different wavelengths.

In the new Pavigrés “P21 Spectrum Edition” we study this visible wavelength and did our own mix; the outcome was a colored stripe of 50 stunning colors in which 23 of them are brand new. Carefully chosen, this new color palette is the result of a long hard study on color functionality, trend, and performance since the importance of color is subconsciously in the base of most of our choices, learning abilities, productivity among many other reasons.

O espectro visível resulta na passagem da luz através de um vidro, cristal ou água, separando-a em diferentes cores. De acordo com Isaac Newton, parte dessa luz é reflectida e alguma emerge em bandas de cores dependendo das diferentes ondas electromagnéticas. O espectro visível não contém todas as cores que podemos ver, porque algumas delas só podem ser vistas com a mistura de diferentes comprimentos de onda.

No novo Pavigrés “P21 Spectrum Edition” estudamos este comprimento de onda visível e fizemos a nossa própria mistura; o resultado foi uma banda colorida de 50 cores impressionantes em que 23 delas são novinhas em folha. Cuidadosamente escolhida, esta nova paleta de cores é o resultado de um longo e árduo estudo sobre a funcionalidade da cor, tendência, e desempenho, uma vez que a importância da cor está subconscientemente na base da maioria das nossas escolhas, capacidade de aprendizagem, produtividade, entre muitas outras razões.

P21

The right use of colors can affect

Performance
Choices
Learning
Well Being
&
Decisions

Red:
Stimulating color, spiking energy levels, high attention.

Orange:
Short term concentration, high mental activity, mood-lifting.

Yellow:
High-energy color, fresh, intense, overwhelming.

Purple:
Polarizing color, exotic, formal environments.

Green:
Long term concentration, efficiency and focus.

Blue:
Productivity, high cognitive load, friendly environments.

HOMOGENEOUS TECHNICAL PORCELAIN TILES
GRÈS CÉRAMÉ TECHNIQUE
GRÉS PORCELÂNICO TÉCNICO

A Stunning Collection with a wide spread of colors, blended perfectly with Nature and a range of formats allowing ideas beyond imagination.

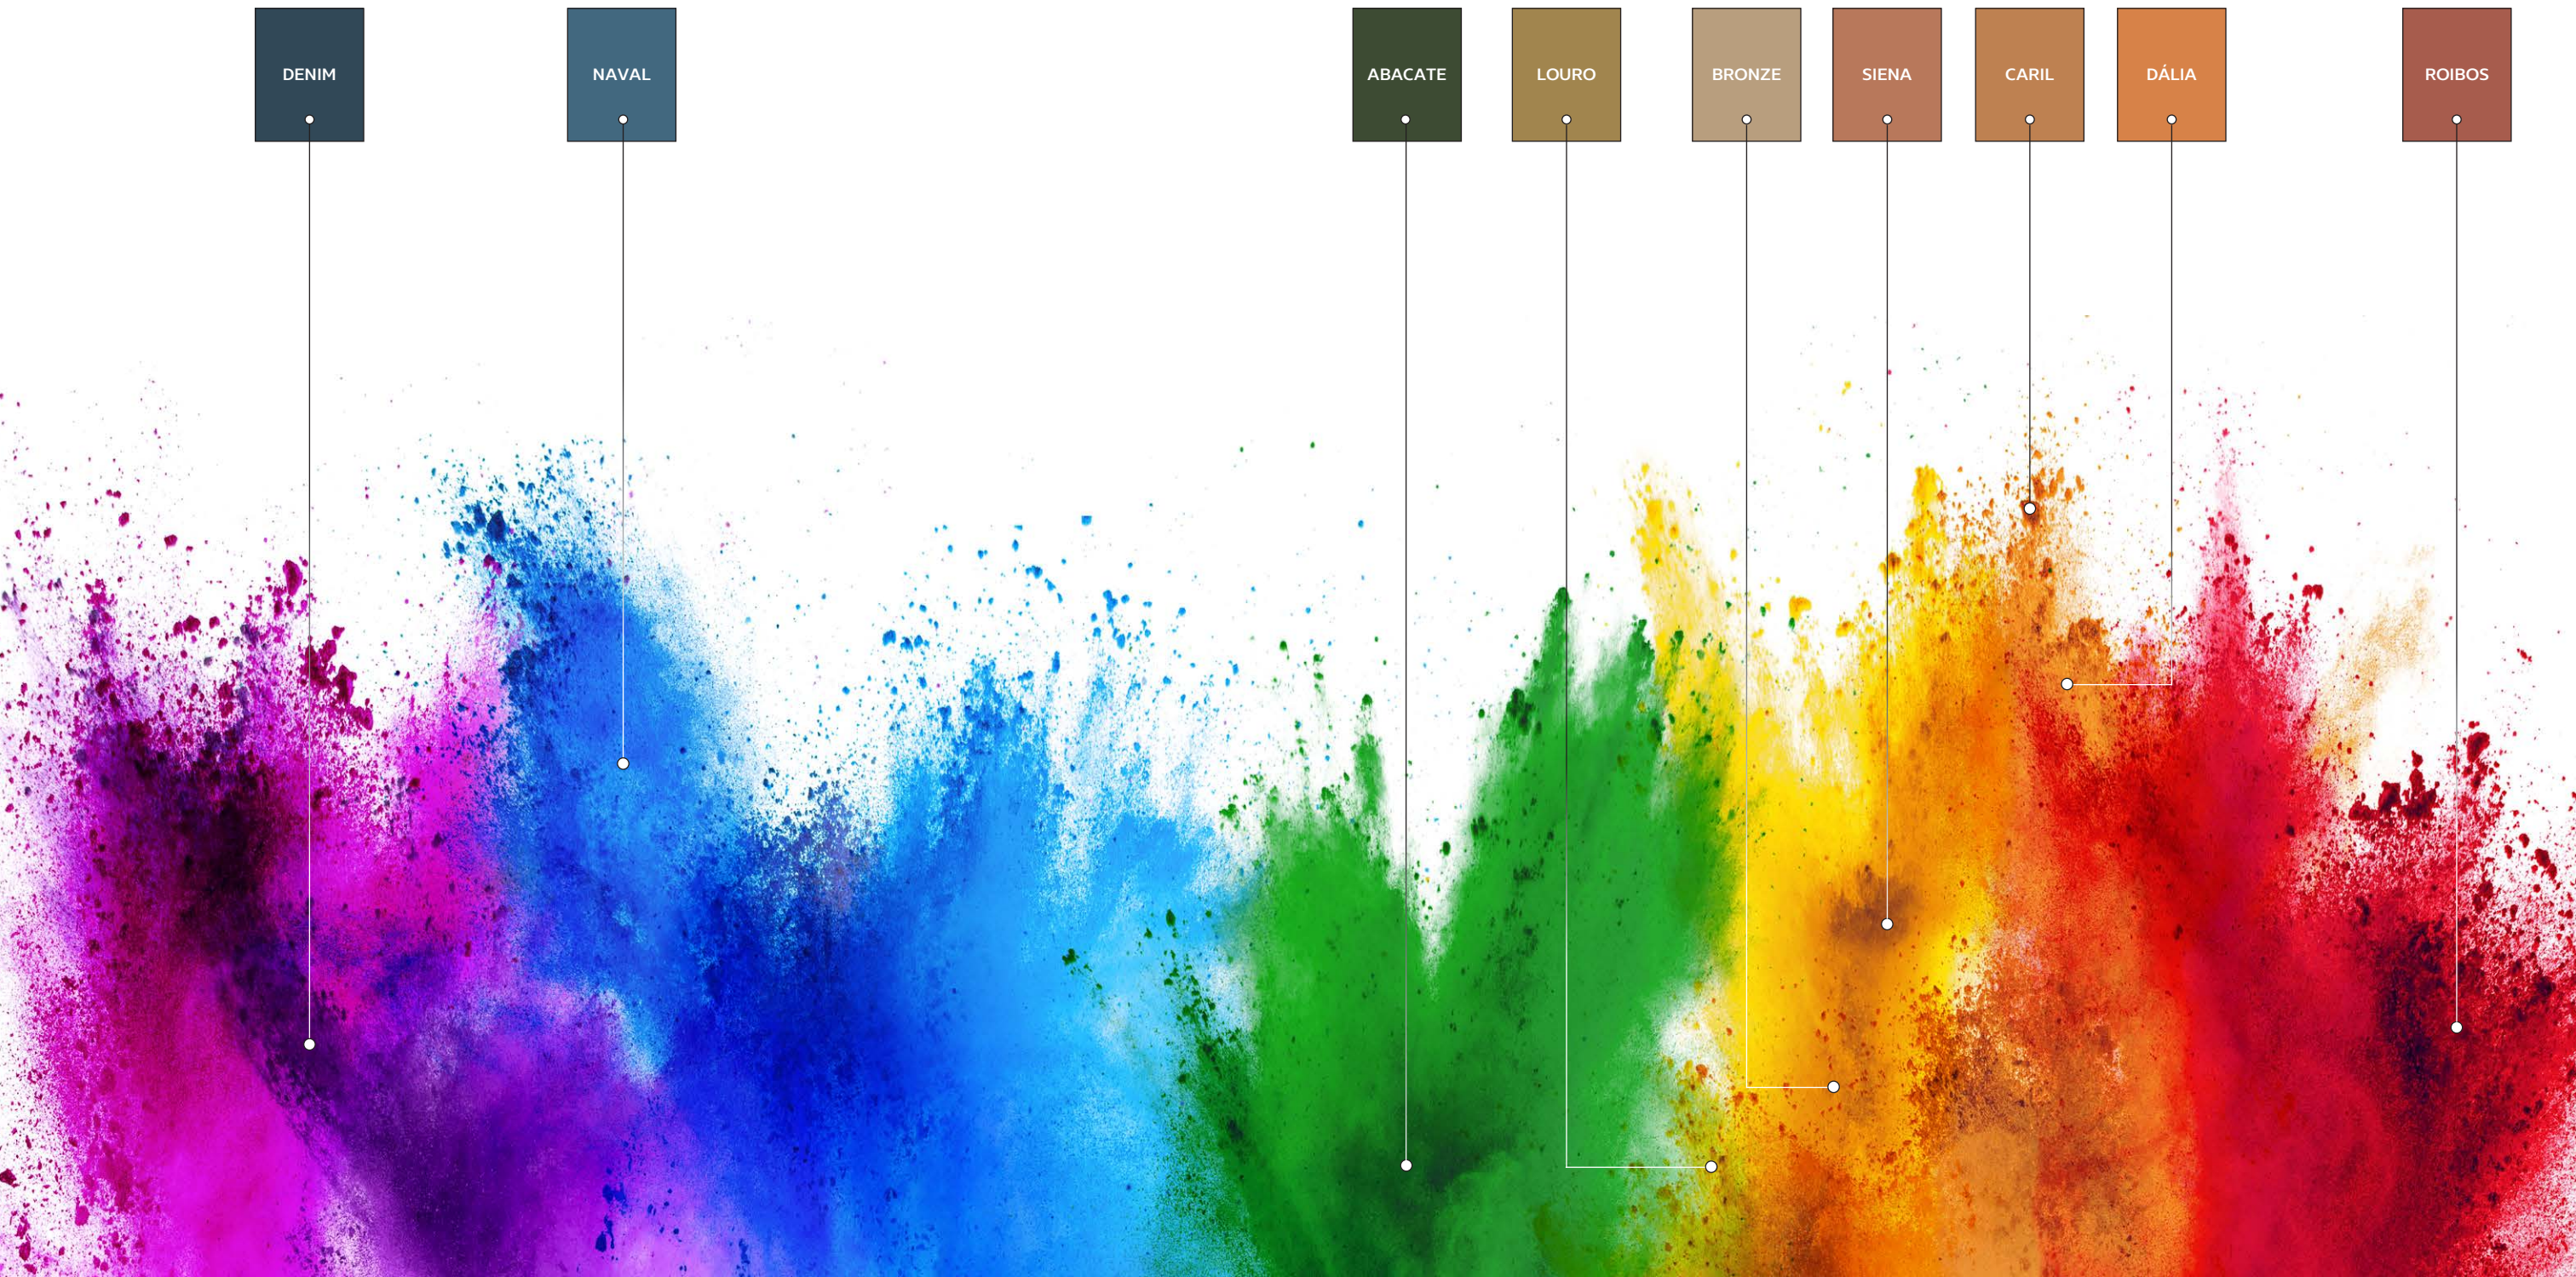

Due to its technical performance is suitable for high traffic places and enthusiastic for living spaces.

Uma Coleção Notável, com um enorme leque de cores perfeitamente enquadradas com a Natureza e uma quantidade de formatos que permite ideias para além da imaginação

Devido às suas qualidades técnicas este é o produto perfeito para espaços públicos e apaixonante para espaços residenciais.

⚠ No claims accepted after ceramic tiles are fixed | Aucune réclamation ne sera acceptée après la pose du carrelage | Não se aceitam reclamações depois do mosaico cerâmico aplicado.

GLAZED VITRIFIED TILES
GRÈS ÉMAILLÉ
GRÉS VIDRADO

Versatile Collection suitable for moderate traffic areas in commercial and residential settings, with classic and timeless colors, blending warm, cold and neutral tones. Its chromatic intensity are unique features to the modern design needs.

Coleção versátil adequada para áreas de tráfego moderado em espaços comerciais e residenciais, com cores clássicas fazendo um "mix" entre cores quentes, frias e tons neutros.

A sua intensidade cromática é única para as necessidades do design moderno.

**ART WOULD BE THE ABILITY TO IMITATE NATURE
REPRODUCING IT, WOULD BE A PRODIGY.**

ARTE SERIA A CAPACIDADE DE IMITAR A NATUREZA
REPRODUZI-LA SERIA UM PRODÍGIO.

NATURE AT THE ORIGIN OF EVERYTHING

Sustainable development is the challenge of today's companies. In Pavigrés Cerâmicas, S.A. we are aware of this reality and we take the challenge seriously.

For several years now, there's been a growing environmental awareness in the group, based on a principle of continuous improvement of environmental performance, not only because of the impact that today's actions have on the resources available for future generations but also because of the immediate impact on production costs and competitiveness. The company adopts an approach of environmental protection and pollution prevention, both at the level of production processes and products, trying to reduce the consumption of resources: raw materials, energy and water, which are vital components of all processes.

Reducing resource consumption is one of the main objectives within the Quality and Environmental Management System, according to the ISO NP 9001:2015 and ISO NP 14001:2015 standards, for which the organization is certified. Actions and goals have been defined to try to guarantee this objective. This goal can only be achieved with a proactive attitude, continuously seeking the means that allow us to effectively adapt equipment and processes to new technologies available.

A NATUREZA NA ORIGEM DE TUDO

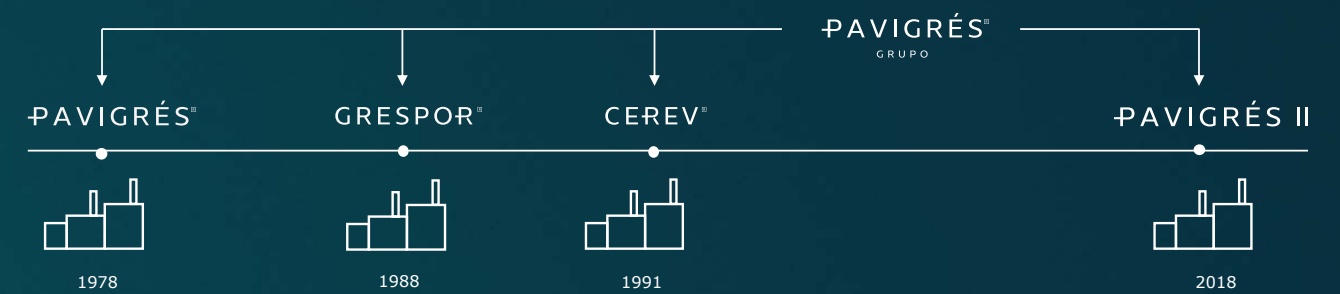

O desenvolvimento sustentável é o desafio das empresas de hoje. Na Pavigrés Cerâmicas, S.A estamos conscientes dessa realidade e encaramos o desafio com seriedade.

Desde há vários anos tem sido crescente a consciencialização ambiental no grupo, assente num princípio de melhoria contínua do desempenho ambiental, não apenas devido ao impacto que as ações de hoje têm nos recursos disponíveis para as futuras gerações, mas também devido ao impacto imediato nos custos de produção e na competitividade. A empresa adota uma abordagem de proteção do ambiente e prevenção da poluição, tanto ao nível dos processos de produção como dos produtos, tentando reduzir o consumo de recursos: matérias-primas, energia e água, que são componentes vitais de todos os processos.

A redução do consumo de recursos é um dos principais objetivos no âmbito do Sistema de Gestão de Qualidade e Ambiente, segundo as Normas ISO NP 9001:2015 e ISO NP 14001:2015, pelas quais a organização é certificada. Definiram-se ações e metas para procurar garantir esse objetivo. Tal objetivo só se alcança com uma atitude pró-ativa, procurando de forma incessante os meios que nos permitam uma adequação efetiva de equipamentos e processos a novas tecnologias disponíveis.

THE PAVIGRÉS GROUP INDUSTRIAL STRUCTURE

The Pavigrés Group is dedicated to the manufacturing of ceramic floor and wall tiles and consists of 4 production units: Pavigrés and Grespor in Anadia, Cerev in Mealhada and Pavigrés II in Bustos. We have about 750 employees and an installed capacity of 10 million m²/year.

O GRUPO PAVIGRÉS ESTRUTURA INDUSTRIAL

O Grupo Pavigrés dedica-se ao fabrico de pavimento e revestimento cerâmico e é constituído por 4 unidades de produção: Pavigrés e Grespor em Anadia, Cerev na Mealhada e Pavigrés II em Bustos. Contamos com a colaboração de cerca de 750 trabalhadores e temos uma capacidade instalada de 10 milhões de m²/ano.

GOOD PRACTICES, PILLARS FOR SUSTAINABLE DEVELOPMENT

We focus not only on the impact that today's actions have on the resources available for future generations, but also on the immediate impact that these actions have on production costs and on our competitiveness. Sustainability is based on fighting waste, and it is precisely in the efficiency of companies that their competitive advantage may lie.

This can only be achieved with a proactive attitude, which materializes with the adoption of good practices, already rooted in Pavigrés, and which are part of its Strategy.

BOAS PRÁTICAS. PILARES PARA O DESENVOLVIMENTO SUSTENTÁVEL

Colocamos o nosso foco não apenas no impacto que as ações de hoje têm nos recursos disponíveis para as gerações futuras, mas também no impacto imediato que estas ações têm nos custos de produção e na nossa competitividade. A sustentabilidade baseia-se no combate ao desperdício, e é precisamente na eficiência das empresas que pode residir a sua vantagem competitiva.

Tal só se alcança com uma atitude pró-ativa, que se materializa com a adoção de boas práticas, já enraizadas na Pavigrés, e que fazem parte da sua Estratégia.

ECONOMIC DEVELOPMENT
DESENVOLVIMENTO ECONÓMICO

SOCIAL DEVELOPMENT
DESENVOLVIMENTO SOCIAL

ENVIRONMENTAL DEVELOPMENT
DESENVOLVIMENTO AMBIENTAL

RESOURCE MANAGEMENT - ENERGY EFFICIENCY
GESTÃO DE RECURSOS - EFICIÊNCIA ENERGÉTICA

- **Recovery of hot air from the cooling zone of the ovens for pre-heating the product in the greenhouses and dryers.**
- **Recovery of gases resulting from combustion to help heat the atomisers.**
- **Replacement of atomizers ovens and dryers with new and more energy efficient equipment.**
- **Installation of high efficiency burners in the ovens.**
- **Acquisition of high efficiency motors, energy class 3 (IE3).**
- **Installation of variable speed drives in the motors.**
- **Replacement of the roofs by translucent tiles that allows the entry of natural light.**
- **Replacement of the existing lighting by LED lighting.**
- **Computerized control of energy consumption associated with production equipment, such as atomisers, presses, dryers and ovens, which allows us to check consumption in real time.**

- Recuperação de ar quente da zona de arrefecimento dos fornos para pré-aquecimento do produto nas estufas e secadores.
- Recuperação dos gases resultantes da combustão para auxiliar no aquecimento de atomizadores.
- Substituição de atomizadores, fornos e secadores, por equipamentos novos, mais eficientes energeticamente.
- Instalação de queimadores de alto rendimento nos fornos.
- Aquisição de motores de alto rendimento, de classe energética 3 (IE3).
- Colocação de variadores de velocidade nos motores.
- Substituição dos telhados, com aplicação de telhas translúcidas que permitem a entrada de luz natural.
- Substituição da iluminação existente por iluminação LED.
- Controlo informatizado dos consumo energéticos associados aos equipamentos produtivos, como atomizadores, prensas, secadores e fornos, que nos permite em tempo real, verificar os consumos.

RESOURCE MANAGEMENT - ENERGY EFFICIENCY
GESTÃO DE RECURSOS - ENERGIAS RENOVÁVEIS

- It is already a reality to Pavigrés Group the installation of two photovoltaic plants, which are expected to significantly reduce the dependence on electric energy from the grid.
- Cerev in 2020 was the first manufacturing unit to be equipped with 2222 photovoltaic panels, which will generate around 1392MWh/Year counting with a reduction of dependence on the public energy network of around 13%. With this reduction, indirectly, around 500 tons of CO₂ will no longer be emitted.
- Pavigrés II in 2021/2022 was the second factory to be equipped with 1850 photovoltaic panels which will generate about 1285MWh/Year, with a reduction in the use of the public energy network of about 19%. With this reduction, indirectly, 240 tons of CO₂ will no longer be emitted.
- With these investments Pavigrés Group has taken into account two decisive factors, the reduction of costs through the consumption of clean energy and the significant reduction of the amount of CO₂ emitted by reducing the energy needs of the public network.

- É já uma realidade para a o Grupo Pavigrés a instalação de duas centrais fotovoltaicas, com as quais se prevêm uma redução significativa da dependência de energia elétrica da rede.
- A Cerev em 2020 foi a primeira unidade fabril a ser equipada com 2222 painéis fotovoltaicos, estes, vão gerar cerca de 1392MWh/Ano contando com uma redução da dependência da rede energética pública de cerca de 13%. Com esta redução, indirectamente deixarão de ser emitidas cerca de 500Ton. de CO₂.
- A Pavigrés II em 2021/2022 foi a segunda unidade fabril a ser equipada com 1850 painéis fotovoltaicos, que vão gerar cerca de 1285MWh/Ano havendo uma redução do uso da rede energética pública de cerca de 19%. Com esta redução, indirectamente deixarão de ser emitidas cerca de 240Ton. de CO₂.
- Com estes investimentos o Grupo Pavigrés teve em conta dois fatores decisivos, a redução dos custos através do consumo da energia limpa e a significativa redução da quantidade de CO₂ emitido pela redução das necessidades energéticas da rede pública.

RESOURCE MANAGEMENT - RAW MATERIALS

GESTÃO DE RECURSOS - MATÉRIAS PRIMAS

- **Development of new products with lower thickness, which allows a reduction in the consumption of raw materials and, consequently, inherent emissions to the process by its consumption and processing.**
- **Growing demand and substitution of raw materials by similar materials with a reduced carbon content.**
- **Regular energy audits that allow a detailed and exhaustive study of the production processes. They also make it possible to determine the investments necessary for the implementation of the measures identified, as well as their profitability and viability.**
- **Reduction of clean water consumption through recirculation of treated residual water, which consequently reduces discharges into the water domain.**
- **Dry rectification lines, which not only no longer require the use of water in the transformation process, but also allow the reincorporation of the dust from the rectification.**
- **The declassification of the raw shard, atomised powder and cooked shard, allows us to forward them as by-products. Regarding the waste generated, we can state that 99.9% of the waste is sent for recovery operations.**

- Desenvolvimento de novos produtos com espessura inferior, que permite a redução de consumo de matérias-primas e, conseqüentemente, emissões inerentes ao processo pelo seu consumo e processamento.
- Crescente procura e substituição de matérias-primas por similares com reduzido teor de carbono.
- Realização de auditorias energéticas periódicas que possibilitam o estudo detalhado e exaustivo dos processos produtivos. Permitem ainda determinar os investimentos necessários para a execução das medidas identificadas assim como a rentabilidade e viabilidade das mesmas.
- Redução do consumo de água limpa mediante a recirculação de água residual tratada, que conseqüentemente reduz as descargas no domínio hídrico.
- Linhas de retificação a seco, que não só dispensam a utilização de água no processo de transformação, como permite a reincorporação do pó proveniente da retificação.
- A desclassificação do caco cru, pó atomizado e caco cozido, permite-nos o seu encaminhamento como subproduto. Relativamente aos resíduos gerados, podemos afirmar que 99.9% dos resíduos são encaminhados para operações de valorização.

We are aware that there is a long way to go and the struggle against obstacles is constant. It is our goal to reduce greenhouse gas emissions as much as possible, and to do everything within our power always with a view to sustainability and environmental protection.

Estamos conscientes que há um longo caminho a percorrer e que o confronto com obstáculos é constante. É nosso objetivo reduzir ao máximo as emissões de gases com efeito de estufa, e fazer o que estiver ao nosso alcance sempre no sentido da sustentabilidade e proteção do meio ambiente.

CHECKING THE MATERIAL
VÉRIFICATION
CONFERÊNCIA

PRIOR TO THE INSTALLATION, CHECK IF THE MATERIAL CORRESPONDS TO THE DESIRED: MODEL, CHOICE (QUALITY), CLASS (SHADE) AND CALIBRE. CHECK ALL BOXES TO ENSURE THAT EVERYTHING IS CORRECT. KEEP RECORD OF THE DATA OF THE MATERIAL PRINTED ON THE PACKAGING. ANY CLAIMS MADE AFTER THE MATERIAL HAS BEEN INSTALLED WILL NOT BE ACCEPTED BY PAVIGRÉS WHENEVER THE DEFECT WAS PERCEPTIBLE PRIOR TO THE INSTALLATION.

AVANT TOUTE APPLICATION, IL CONVIENT DE VÉRIFIER SI LE MATÉRIAU CORRESPOND: AU MODÈLE, AU CHOIX (QUALITÉ), AU LOT (LE TON) ET AU CALIBRE DÉSIRÉ. VÉRIFIEZ TOUTES LES BOÎTES AFIN D'AVOIR LA CERTITUDE QUE TOUT EST CORRECT. CONSERVEZ TOUTES LES DONNÉES IMPRIMÉES SUR L'EMBALLAGE. LES RÉCLAMATIONS UNE FOIS LE MATÉRIAU APPLIQUÉ NE SONT PAS ACCEPTÉES PAR PAVIGRÉS DANS LE CAS OU LE DÉFAUT SERAIT VISIBLE AVANT L'APPLICATION DU MATÉRIAU.

ANTES DA APLICAÇÃO, VERIFIQUE SE O MATERIAL CORRESPONDE: AO MODELO, À ESCOLHA (QUALIDADE), AO LOTE (TONALIDADE), AO LOTE (TONALIDADE), E AO CALIBRE DESEJADO. VERIFIQUE TODAS AS CAIXAS PARA TER A CERTEZA QUE TUDO ESTÁ CORRECTO. CONSERVE OS DADOS DO MATERIAL IMPRESSOS NA EMBALAGEM. AS RECLAMAÇÕES DEPOIS DO MATERIAL APLICADO NÃO SÃO ACEITAS PELA PAVIGRÉS, CASO O DEFEITO SEJA VISÍVEL ANTES DA APLICAÇÃO DO MATERIAL.

THE EQUIVALENCES FROM PAVIGRÉS 21 COLOURS TO PANTONE, RAL AND NCS SYSTEMS ARE PURELY INDICATIVES. PAVIGRÉS HAS RIGHT TO CHANGE OR ELIMINATE, TOTALLY OR PARTIALLY, ANY REFERENCE OR TECHNICAL SPECIFICATION MENTIONED IN THIS CATALOGUE. PRINTED COLOURS IN THIS CATALOGUE ARE FOR GUIDANCE PURPOSES ONLY.

LES VARIANTES AUXQUELLES LE PROCESSUS DE PRODUCTION EST SOUMIS PEUVENT PROVOQUER DES LÉGÈRES VARIATIONS DE TONALITÉ PAR RAPPORT AU STANDARD ÉTABLIE. LES ÉQUIVALENCES ENTRE LES COULEURS PAVIGRÉS 21 ET CELLES DU SYSTÈME PANTONE, RAL ET NCS SONT PRÉSENTÉES À TITRE UNIQUEMENT INDICATIF. PAVIGRÉS SE DONNE LE DROIT DE CHANGER OU SUPPRIMER, PARTIELLEMENT OU TOTALEMENT, TOUTE RÉFÉRENCE OU SPÉCIFICATION TECHNIQUE MENTIONNÉES SUR CE CATALOGUE.

LES COULEURS PRÉSENTÉES SUR CE CATALOGUE NE SONT QU'INDICATIVES. AS VARIANTES A QUE O PROCESSO DE PRODUÇÃO DE CERÂMICA ESTÁ SUJEITO PODEM PROVOCAR LIGEIRAS VARIAÇÕES DE TONALIDADE EM RELAÇÃO AO PADRÃO DE COR ESTABELECIDO. AS EQUIVALÊNCIAS ENTRE AS CORES PAVIGRÉS 21 E AS CORES DOS SISTEMAS PANTONE, RAL E NCS SÃO APRESENTADAS A TÍTULO MERAAMENTE INDICATIVO. A PAVIGRÉS RESERVA-SE O DIREITO DE ALTERAR OU ELIMINAR, TOTAL OU PARCIALMENTE, QUALQUER REFERÊNCIA OU ESPECIFICAÇÃO TÉCNICA CONTIDA NESTE CATALOGO. AS CORES IMPRESSAS NESTE CATALOGO SÃO APENAS INDICATIVAS.
